WARRANTY INFORMATION

All wood products manufactured by Corona Millworks are guaranteed against warpage or twisting for a period of one year. Doors, drawer fronts, moldings, valances, and fillers, are warrantied by Corona Millworks to the customer against defects occurring in the manufacturing process, and are subject to the terms and conditions as stated in the Warranty certificate.

Corona Millworks also guarantees its Rigid Thermofoil (RTF) products against de-lamination, irregular surface discoloration, warpage or twisting for a period of five (5) years from the date of purchase. The warranty only covers defects as specified herein and does not include defects or damages attributable to misuse or normal surface weathering, defects or damages caused by accidents or fire or other casualty or Acts of God, and any other causes or occurrences beyond the manufacturer's control. The exclusive remedial action provided for the customer hereunder shall be repair, replace, or the return and refund of the products manufactured by Corona Millworks found to be defective.

Visit the Warranty Information page on the Corona Millworks website for more information on all of our warranty inclusions and exclusions.

COLOR

Please Note: Due to the unique characteristics of natural wood, there will be variations in grain and color on your ready-to-be-finished product. Also, due to the nature of printing processes, the colors depicted in this catalog may vary when compared to your finished product.

Specifications and details shown are subject to change. Please contact customer service for questions or more detailed product information.

THERMOFOIL SERIES

Corona Millworks Thermofoil Series Doors are uniform in color and are a great alternative to stained or painted wood doors.

Additionally, our Thermofoil Doors are backed by a 5-Year Limited Warranty.

Due to the nature of the printing process, colors depicted may vary when compared to your finished product.

▲ LASER ENGRAVING

Leave a lasting impression of your craftsmanship for the lifetime of the kitchen. Provide your company's logo artwork and our production department will handle the rest. Laser Logos are available on most of our boxes and materials.

5-7 DAY LEAD TIME

CUSTOM WOOD BOXES & INSERTS

PULL-OUT TRASH BINS ▲

- Single Bin (35 qt.) and Double Bin (70 qt.)
- Pre-finished 9-ply birch
- Beautiful dovetail construction
- Door attaches to front of box
- Notch & Drilled ready to install
- BLUM Soft Close under-mount guides included
- Rubbermaid trash bins included

DRAWER BOXES

◀ CORNER BOXES

- 1/2", 5/8", 3/4" (standard wood species)
- Available in doweled or nailed construction
- Dividers come standard and are removable, specify vertical or horizontal
- Depth is measured from front to end of side
- Notch & Drill available for under-mount hardware

SILVERWARE & UTENSIL INSERTS ►

- Available in doweled or dovetailed construction
- Four configurations available
- Order inserts installed or removable
- 3/8" thick and 1-1/2" tall, pre-finished maple

CUSTOM WOOD BOXES & INSERTS

SPICE PULL-OUT BOXES ▲

- Beautiful dovetail construction
- Available in any standard wood species
- Unfinished or pre-finished
- Built to your specs
- Maximum height is 21"
- Middle shelf is adjustable and removable
- Each shelf's bottom is recessed 1/2"
- Top and bottom shelf height is 3"
- Middle shelf height is 2"

SPICE DRAWER BOX WITH INSERT ▼

- Available in doweled or nailed construction
- Available in any standard wood species
- Inserts are a combination of 1/2" fronts and 1/4" bottoms, pre-finished maple ply
- Depth of box determines number of steps
- Suggested height: 3-1/2", or can build to specs

◀ FILE BOXES

- 1/2", 5/8", 3/4" (Standard wood species)
- Available in standard (letter) and lateral (legal) style (bars run either width or depth of box)
- 9-3/8" minimum inside height
- 13-1/4" minimum inside width (letter)
- 16-1/4" minimum inside width (legal)
- Hanging bars are optional, must be specified
- Slots for bars: 1/8" wide, 1" high
- Slots generally located 3/8" from sides/back or front of drawer

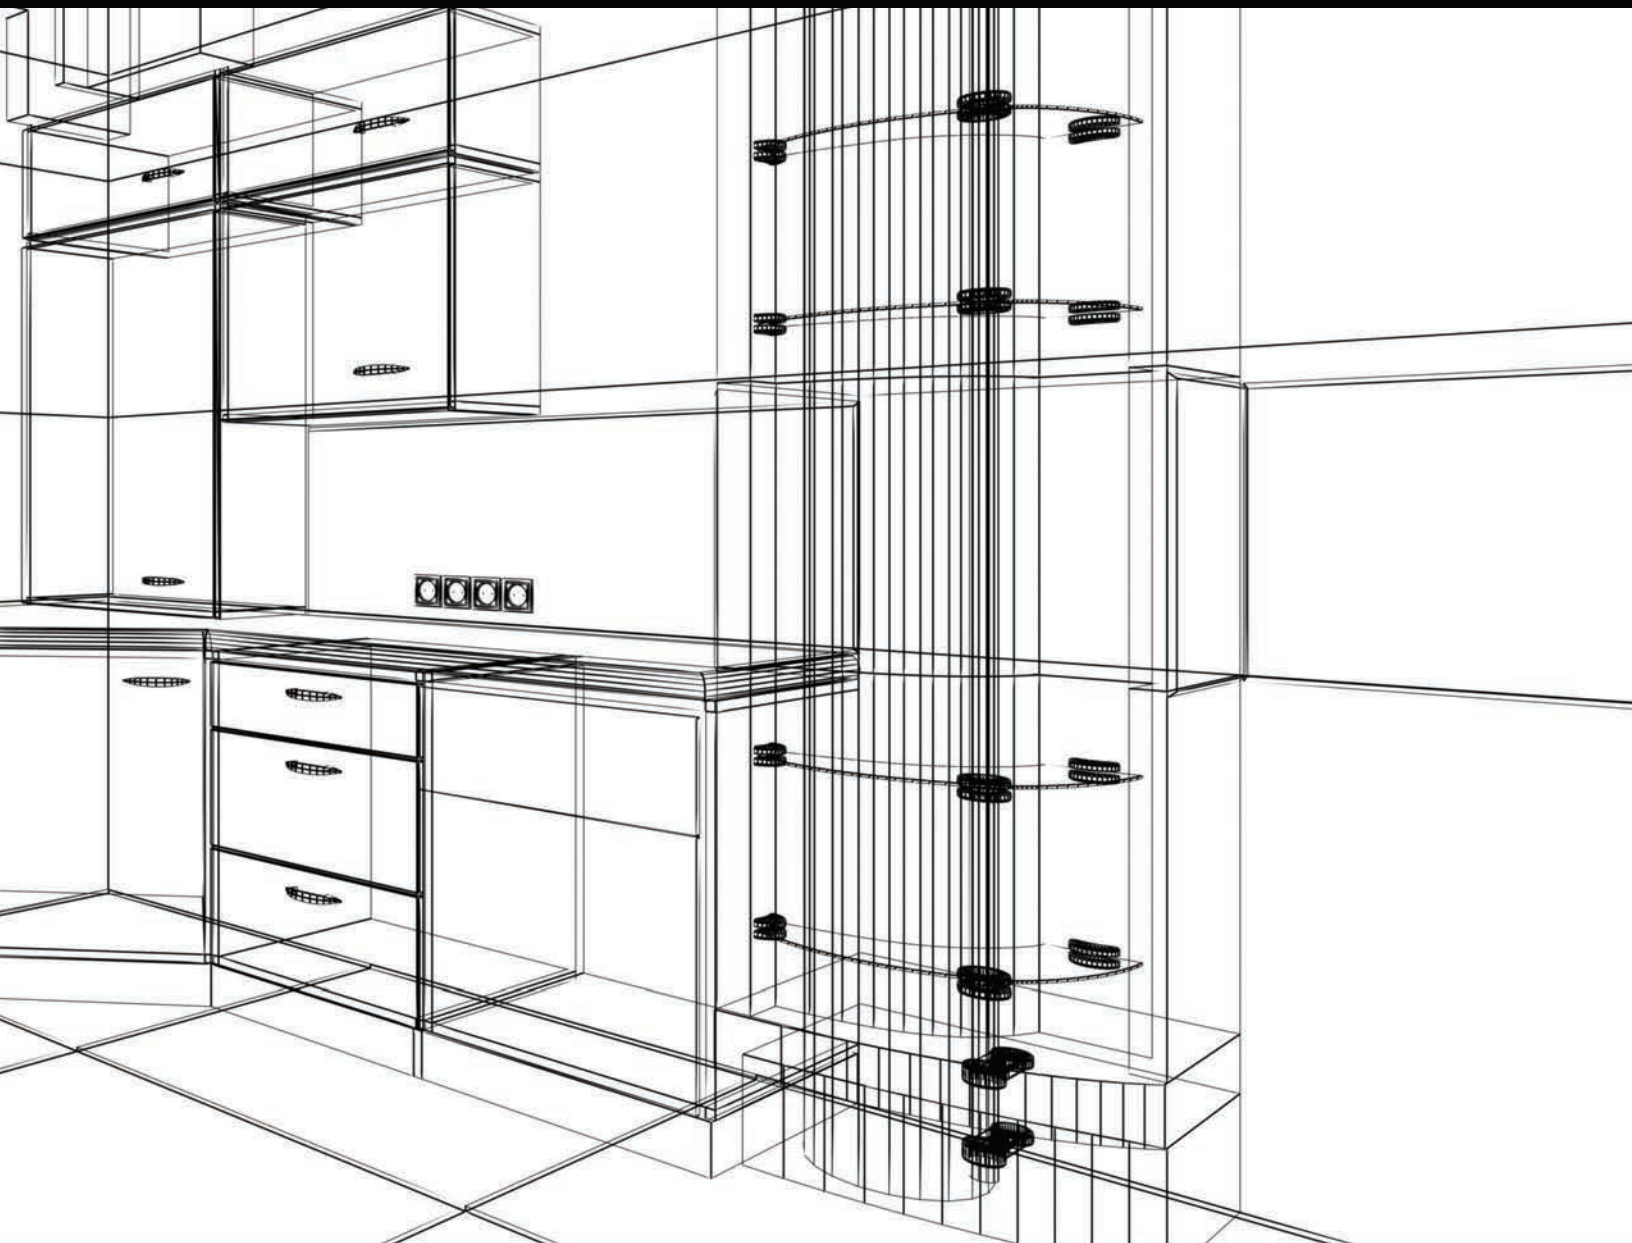

DRAWER BOXES

UNDER SINK STORAGE ▶

- Beautiful dovetail construction
- Available in 9-ply birch or 9-ply maple
- Standard height is 12" or can build to specs
- Top and bottom shelf height is 3"
- Bottoms recessed 1/2"
- Install either using side-mount or under-mount hardware
- Use for kitchen and bath applications

CABINET COMPONENTS & PARTS

Corona Millworks utilizes Cabinet Vision software and CNC equipment for cabinet component manufacturing. With this technology, we can efficiently produce cabinet parts with no standard or stock sizes. Every component is custom produced per-order and is shipped ready to assemble.

Our CNC capabilities allow us to precision machine a wide variety of cabinet components for the cabinet industry. Simply provide the dimensions, material specifications, and quantities. We'll handle the rest!

COMPONENT INFORMATION & GUIDELINES

CABINET CONSTRUCTION

1. All parts are 3/4" thick except back. The customer specifies materials used.
2. Dowel Screws (confirmat) are used primarily for assembly. Provided by Corona Millworks.
3. Finished ends can be dowel constructed, or a 3/4" applied finished end can be fabricated from the exterior material. Applied door panels are also available. Corona Millworks will provide inserted hardwood dowels in all horizontal cabinet components for doweled cabinet assembly.
4. Backs are 1/4" thick and dadoed on the sides and bottom of the cabinet. Stop dadoes are used on wall-hung cabinet sides.
5. Drawer stretchers are placed relative to the size and location of the drawer front.
6. Nailers are placed behind the back and are cut from off-fall material. Color may vary.
7. Construction methods may vary for customers' specific requests and option fees will apply.

HARDWARE HOLE LAYOUT METHODS

CNC Machining System

All hardware holes are accurately machined. Holes are placed specifically for each hinge plate, drawer slide, and adjustable shelves.

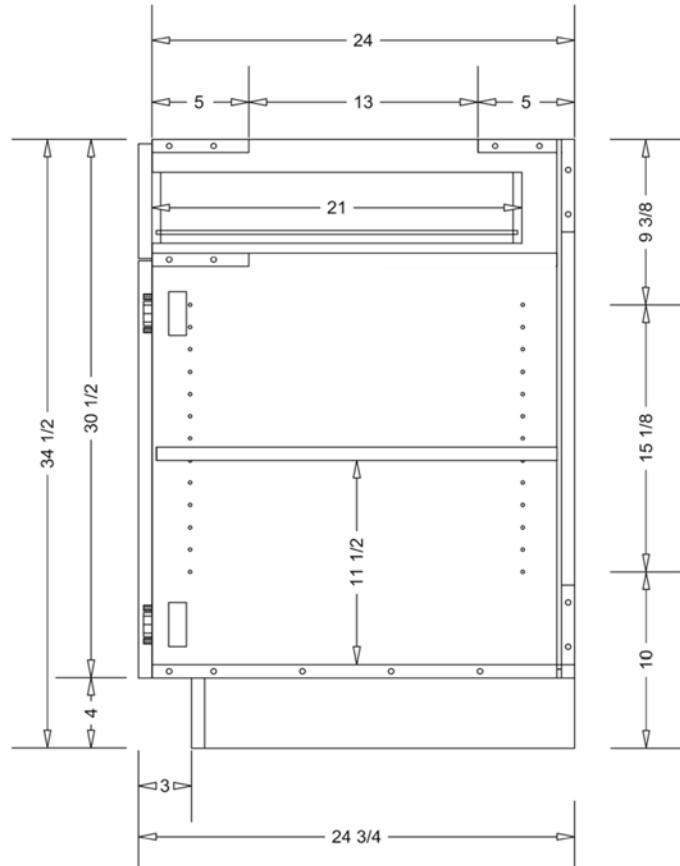

Holes required for hinge baseplates are placed relative to the top and bottom of the door. Hinge cups can be bored 3" from the top and bottom edge of the door.

Drawer hardware holes are placed for the specified hardware and relative to location of the drawer.

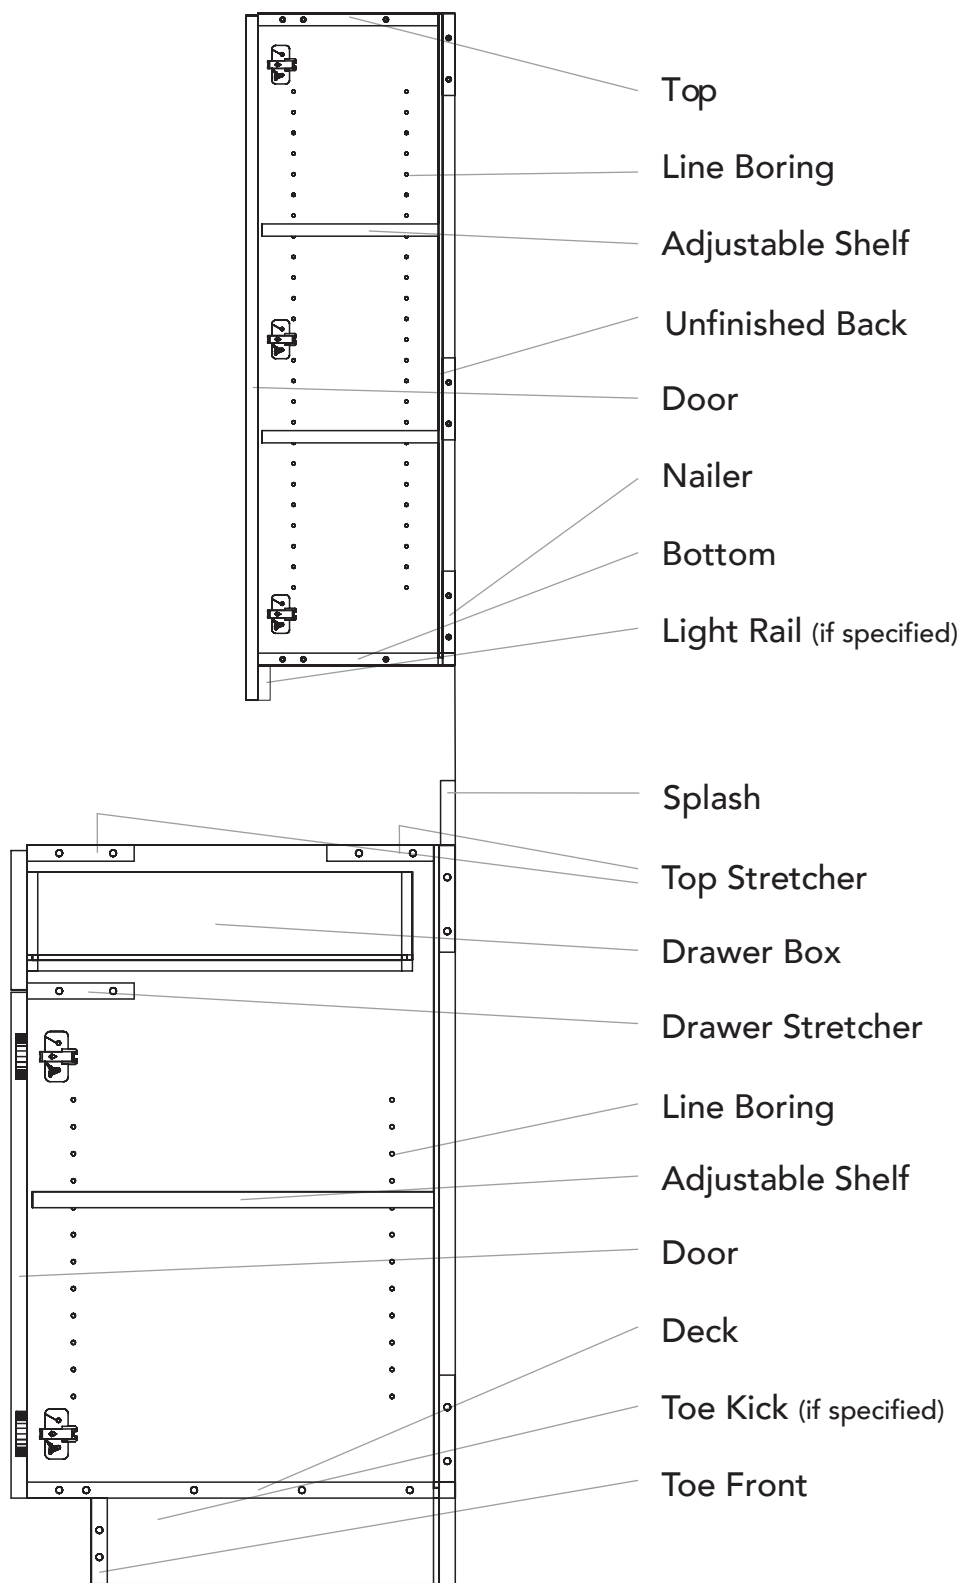

Adjustable shelf holes are placed between the base plates only if adjustable shelves are specified in the cabinet.

Specify exactly which hardware applications are to be used when placing order. Only hardware called out on the order form will fit on the final machined part.

One-Door Corner Base Cabinet - One Drawer

- Specify type and number of shelves on order form
- Specify width of false front panel

Note: Hinged on false panel with face frame hinges.

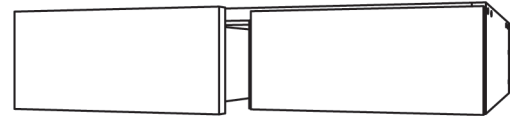

- Specify drawer front heights.
- Door and drawer fronts must equal the height of cabinet including the top and bottom reveals with 1/8" (3mm) gap between drawers.

Built with no bottoms.

200 SERIES - Drawer Aprons

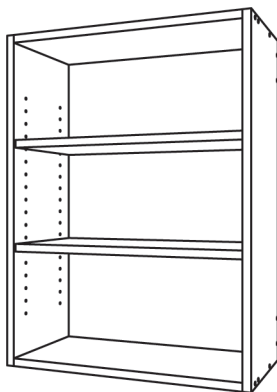

CM290
One-Drawer Apron

CM291
Two Equal-Drawer Apron

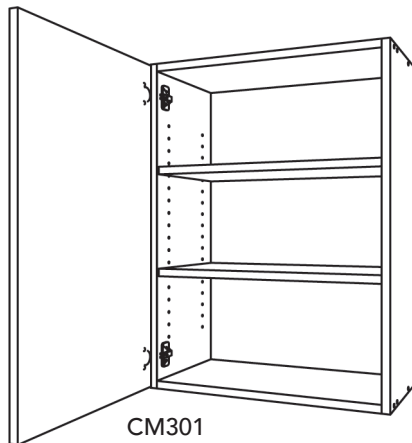

Wall cabinets made of interior material unless specified.

300 SERIES - Upper Cabinets

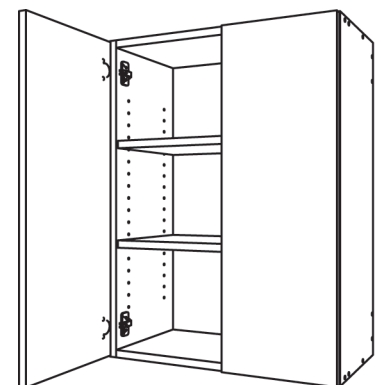

CM300
Open Upper Cabinet

- Specify type and number of shelves on order form
- Interior surface shall be as listed on order form unless noted differently

CM301
One-Door Upper Cabinet

- Specify type and number of shelves on order form

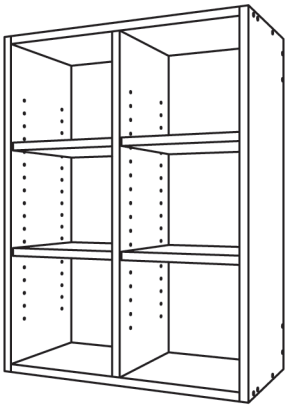

CM302
Two-Door Upper Cabinet

- Specify type and number of shelves on order form
- Interior surface shall be as listed on order form unless noted differently

COMPONENTS & PARTS

300 SERIES - Upper Cabinets

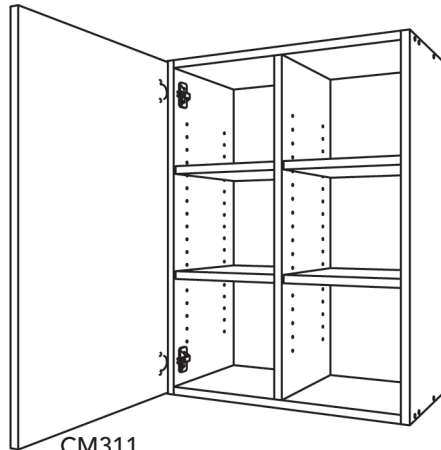

Wall cabinets made of interior material unless specified.

CM310

Open Upper Cabinet

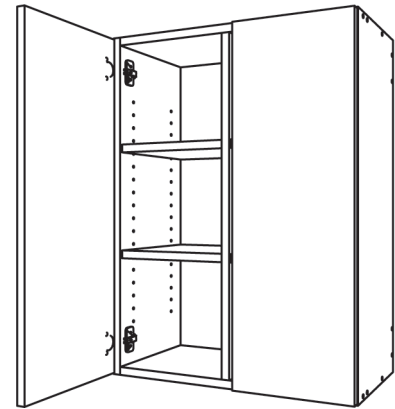

- One vertical divider
- Specify type and number of shelves per opening on order form
- Interior surface shall be listed on order form unless noted differently

CM311

One-Door Upper Cabinet

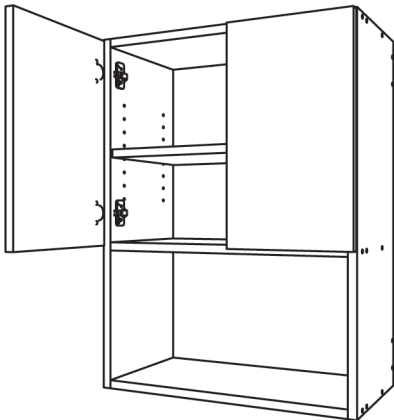

- One vertical divider
- Specify type and number of shelves per opening on order form

CM312

Two-Door Upper Cabinet

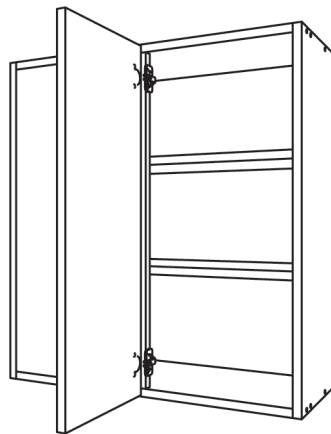

- One vertical divider
- Specify type and number of shelves per opening on order form

CM326

Partial Open Upper Cabinet - Two Doors

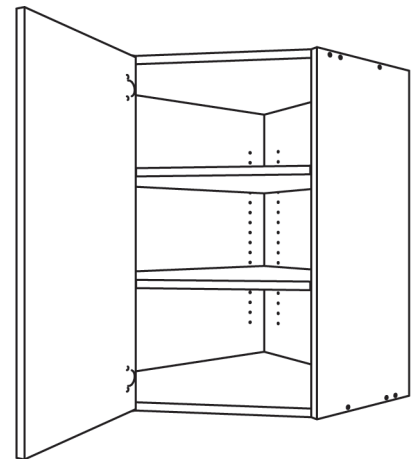

- Specify inside clear height of bottom opening

CM376 (Blind Corner 1)

One-Door Corner Upper Cabinet with False Panel

- Specify type and number of shelves per opening on order form
- Specify width of false panel
- Specify hinge right or left for false panel on opposite side

CM386 (Angle Corner 2)

One-Door at 45° Angle Corner Upper Cabinet

- Specify type and number of shelves per opening on order form

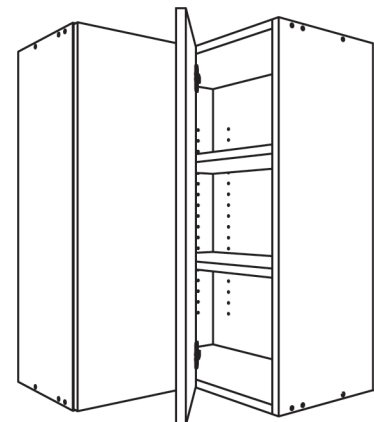

COMPONENTS

- Corner cabinets are constructed with 3/4" backs.

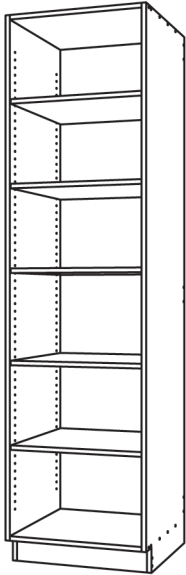

(L-Shaped 2) **CM397**

Two-Door Upper Corner Cabinet

- Doors are hinged left or right and bi-fold in the center
- Specify type and number of shelves on order form

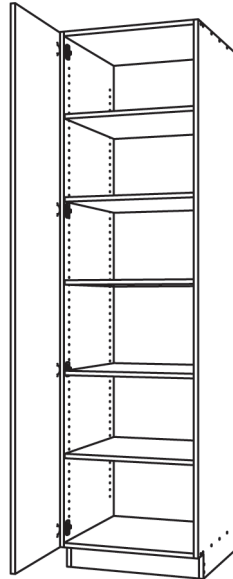

400 SERIES - Tall Cabinets

CM400

Open Tall Cabinet

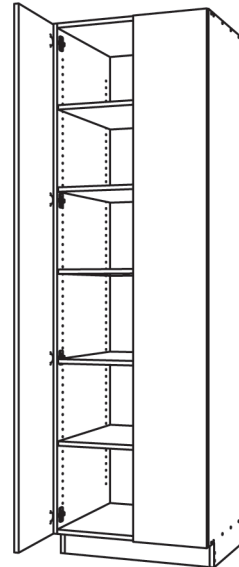

- Specify type and number of shelves on order form
- Interior surface shall be as listed on order form unless noted differently

CM401

Open-Door Tall Cabinet

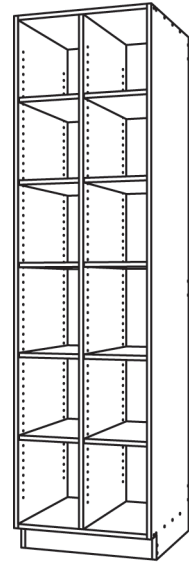

- Specify type and number of shelves on order form

CM402

Two-Door Tall Cabinet

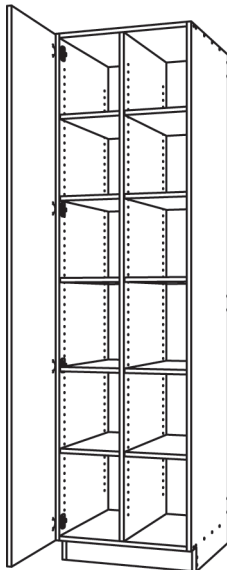

- Specify type and number of shelves on order form

CM410

Open Tall Cabinet

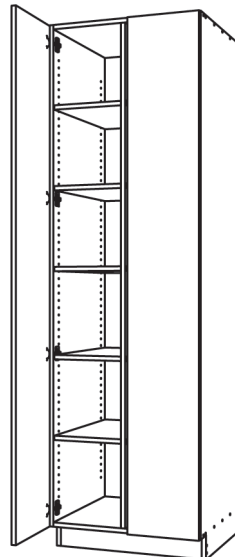

- Open vertical divider
- Specify type and number of shelves on order form
- Interior surface shall be as listed on order form unless noted differently

CM411

One-Door Tall Cabinet

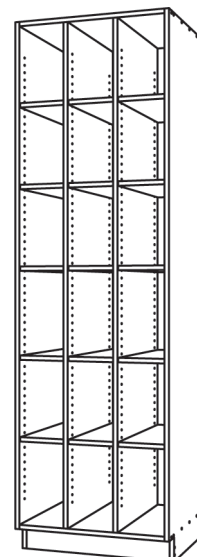

- One vertical divider
- Specify type and number of shelves on order form

CM412

Two-Door Tall Cabinet

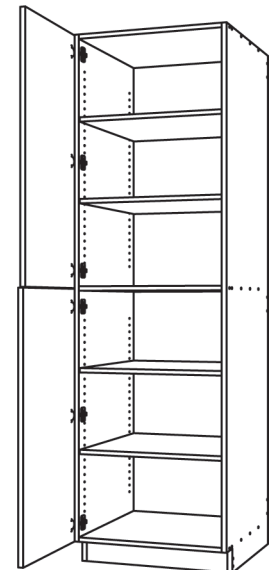

- One vertical divider
- Specify type and number of shelves on order form

CM420

Open Tall Cabinet

- Two vertical dividers
- Specify type and number of shelves on order form
- Interior surface shall be as listed on order form unless noted differently

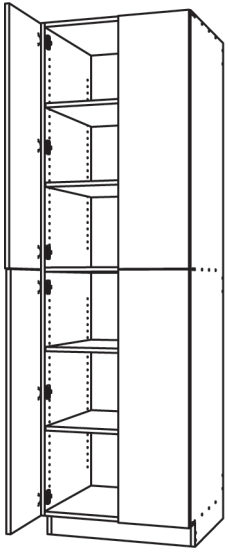

CM423

Two-Door Tall Cabinet

- Specify type and number of shelves on order form
- Specify inside clear opening height on top section

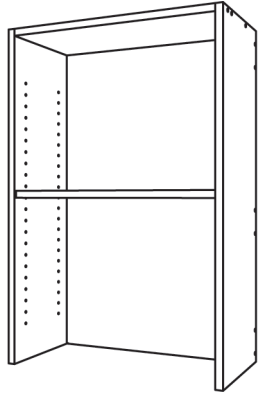

COMPONENTS & PARTS

400 SERIES - Tall Cabinets

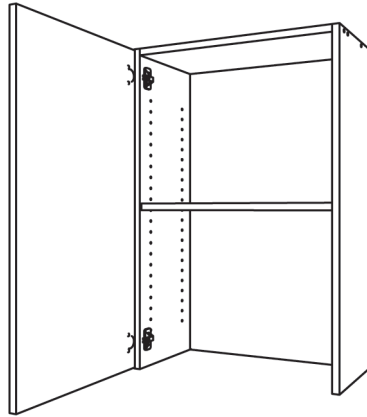

CM424
Tall Cabinet - Four Doors
- Split Height

- Specify door heights
- Specify type and number of shelves on order form

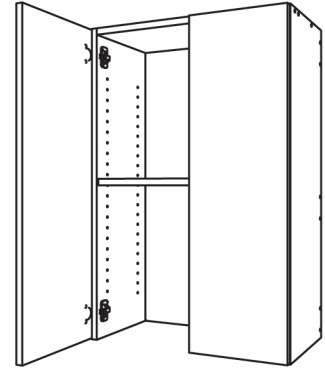

CM440
Open Hutch Cabinet

- Specify number of adjustable shelves
- Interior surface shall be as listed on order form unless noted differently

CM441
One-Door Hutch Cabinet

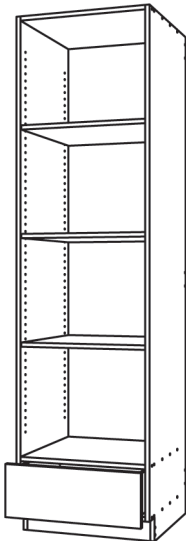

- Specify number of adjustable shelves
- Interior surface shall be as listed on order form unless noted differently

CM442
Two-Door Hutch Cabinet

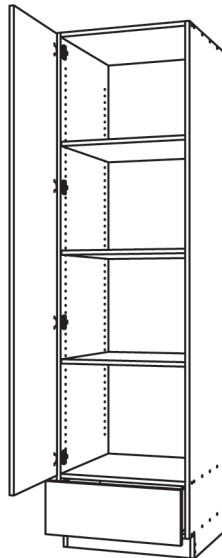

- Specify number of adjustable shelves
- Interior surface shall be as listed on order form unless noted differently

800 SERIES - Tall Cabinets

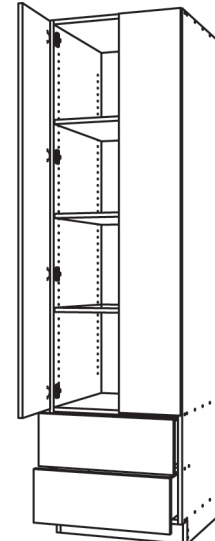

CM810
Open Tall Cabinet - One Drawer

- One Fixed shelf standard
- Specify drawer front height
- Specify number of adjustable shelves
- Interior surface shall be as listed on order form unless noted differently

CM811
One-Door Tall Cabinet - One Drawer

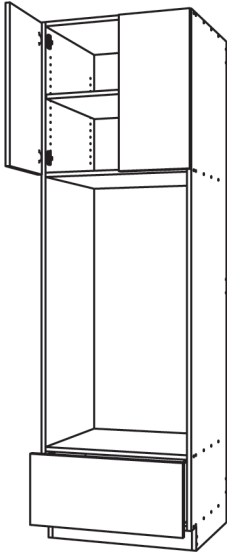

- One fixed shelf standard
- Specify drawer front height
- Specify number of adjustable shelves

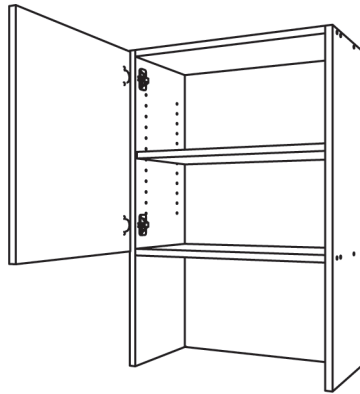

CM820
Two-Door Tall Cabinet - Two Drawers

- 1 Fixed shelf standard
- Specify drawer front heights
- Specify number of adjustable shelves

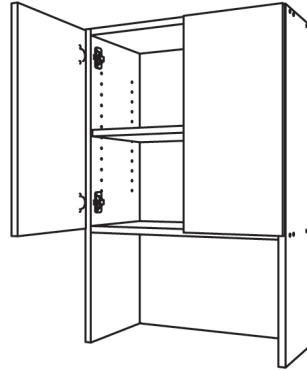

Specialty Cabinets

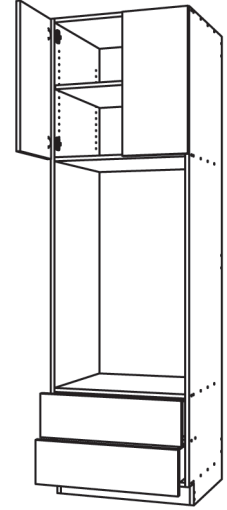

- CM812 - O**
Tall Cabinet for Oven - Two Doors
- Specify height for drawer front
 - Specify inside clear opening height
 - Specify type and number of shelves on order form

- CM441 - O**
One Opening Hutch Cabinet - One Door
- One fixed shelf standard
 - Specify opening height
 - Specify number of adjustable shelves
 - Interior surface shall be as listed on order form unless noted differently

- CM442 - O**
Two-Door Hutch Cabinet
- One fixed shelf standard
 - Specify opening height
 - Specify number of adjustable shelves
 - Interior surface shall be as listed on order form unless noted differently

- CM822 - O**
Two-Door Open Tall Cabinet - Two Drawers
- Two fixed shelf standard
 - Specify drawer box and opening heights
 - Specify number of adjustable shelves
 - Interior surface shall be as listed on order form unless noted differently

- **S (Split Doors):** Give the inside height dimensions of the bottom section.
- **HP (Horizontal Partition):** Give the inside height dimensions of the bottom section.
- **D (Drawer Section):** Specify drawer front heights.
- **O (Open Appliance Section):** Specify inside dimensions for each section.

FACE FRAMES

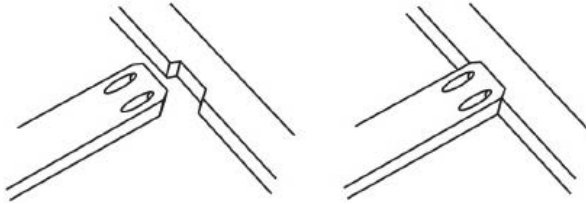

FACE FRAME CONSTRUCTION

Butt Joint: Frames will be assembled using wood glue and high-strength pocket screws at all joints

Haunched: For added rigidity, haunched construction may be requested.
- If haunching is requested, all mid-stiles/mid rails will be 1-7/8" wide.
- Haunching will be used for all beaded frames.

Frames can be delivered unassembled, if preferred.

Haunch Construction

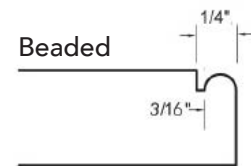

Bead Options

Square

Beaded

PART WIDTHS

Standard Stile/Rail Widths:
1-1/2", 2", 2-1/2", 3"

Haunched Mid Stile/Rail"
1-7/8"

For standard pricing, stile and rail widths must adhere to stated increments.
Option charges will apply to custom width requests.

MIN / MAX SIZES

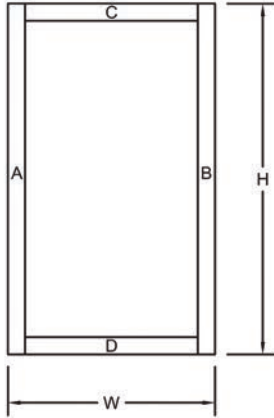

For standard pricing, stile and rail widths must adhere to stated increments.
Option charges will apply to custom width requests.

MATERIALS

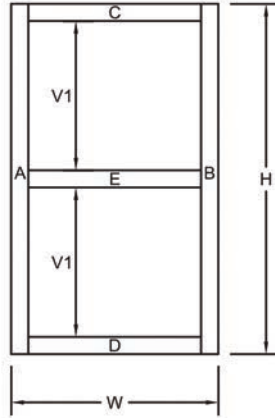

Corona Millworks offers face frames in Alder, Beech, Cherry, Poplar, Red Oak, Select Maple, Soft Maple, Walnut, and White Oak. Additional varieties can be requested, but availability may affect cost and lead time.

SANDING

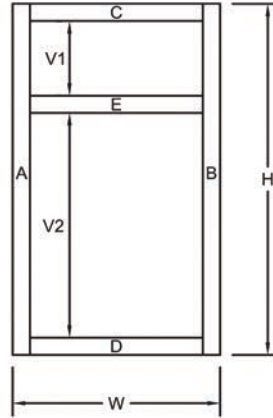

All frames will be sanded on the face and back to 13/16".

COMPONENTS

CORBEL COLLECTION WOOD POSTS PREMIUM MOULDINGS

These architectural accent pieces are both decorative and functional as island supports, shelf supports, and under-cabinet architectural embellishments. Wood posts are available in full posts, half-posts, unfinished, or pre-finished to your specifications. Our crown and baseboard mouldings are crafted from the finest materials including white and red oak, alder, maple, cherry, as well as paint grades.
